

Bring Your Love

Ask yourself this what are you doing it for
Is it for you, is it for them
I got something I wanna talk about

Sabrina...

Madonna...

I got something I wanna talk about

Don't comment on my ideas
I don't want your judgment or your expectations
Don't wind me up like a toy
Your vision of me is a killer of joy

I know where the bodies are buried
Don't try to shut me up
Don't try to distract me with numbers
I did it all for love

Bring your love
Cause you cannot shake me
Bring your love
Cause you'll never break me
Bring your love
Cause you cannot take me down

Don't rely on my moral compass
Or my discretion, I have a confession
Don't shove your fears down my throat
Before I can speak, I can't even breathe

I know where the bodies are buried
Don't try to shut me up
Don't try to distract me with numbers
I did it all for love

Bring it Sabrina, you got something to say about it?

Bring your love
Cause you cannot shake me
Bring your love
Cause you'll never break me
Bring your love
Cause you cannot take me down

Bring your love
Cause you cannot shake me
Bring your love

Cause you'll never break me
Bring your love
Cause you cannot take me down

Don't wanna compromise
I made the sacrifice
I always pay the price
And now I don't wanna
Don't wanna

I have a confession
I did it all
I did it all
I did it all for love

Bring your love
Cause you cannot shake me
Bring your love
Cause you'll never break me
Bring your love
Cause you cannot take me down

Sabrina... I've got something I wanna talk about
Madonna... I've got something I wanna talk about
