

Mr. know it all

She like the low, she like the high
I've seen it all too many times
Geronimo, she's dropping by
Fork in the road, this fate of mine

I can't act like I don't keep dressing for the storm, then blame the sky
Oh, I know I'm damned if I do, damned if I don't
Wherever I end up, it's never no surprise

Should've told you I could see this coming
Like I'm looking right into a crystal ball
When I fall in love, it's with misfortune
Oh, I wish I wasn't Mr. Know It All
Give you everything you say you wanted
See the future like it's written on the wall
You're the only thing that's missing from it
Oh, I wish I wasn't Mr. Know It All
Mr. Know It All (Mr.)

Pulling dominoes from a coffee can
Set 'em up and watch 'em fall, do it over again
Like a tennis ball through a ceiling fan
Bet you never end up falling back in my hands, oh

Should've told you I could see this coming (see this coming)
Like I'm looking right into a crystal ball
When I fall in love, it's with misfortune
Oh, I wish I wasn't Mr. Know It All
Give you everything you say you wanted (say you wanted)
See the future like it's written on the wall
You're the only thing that's missing from it (missing from it)
Oh, I wish I wasn't Mr. Know It All

I don't wanna stay (stay), I don't wanna run
I already know what this'll become
I'm watching you dance and falling in love
I'm getting way too close to the sun

Should've told you I could see this coming (coming)
Like I'm lookin' right into a crystal ball
When I fall in love, it's with misfortune (oh, it's with misfortune)
Oh, I wish I wasn't Mr. Know It All
Give you everything you say you wanted (you say you wanted)
See the future like it's written on the wall (written on the wall)

You're the only thing that's missing from it (missing from it)
Oh, I wish I wasn't Mr. Know It All

Mr. Know It All (Mr. Know It All)
(Mr., Mr, Know It All, Mr.)
Mr. Know It All
