

Heaven Baby

I know how far I go, I wish you did
But if I told you, could you comprehend? (Are you)

[Pre-Chorus: Ayra Starr]

They say, "When you know, you know, you know"

Hello, hello, hello, you had me at hello

They say life is short, I know that's for sure

But looking at you, I know that there is something more

[Chorus: Ayra Starr]

You could be my heaven, baby

Die for you if you let me, baby

You're an angel, goddammit, baby

If you ever left this planet, baby

Couldn't manage, baby

Are you heaven, baby?

Life without you is insanity

You're an angel, you don't need no wings

If you ever left this planet, baby

Couldn't manage, baby

[Verse 2: ZAYN]

You know how far I'd go? It's past the sky

You tell me jump, I jump, just say how high

[Pre-Chorus: ZAYN]

They say, "When you know, you know, you know"

Hello, hello, hello, you had me at hello

They say life is short (Short), I know that's for sure (For sure)

But looking at you, I know that there is something more

[Chorus: Ayra Starr & ZAYN]

You could be my heaven, baby

Die for you if you let me, baby

You're an angel, goddammit, baby

If you ever left this planet, baby

Couldn't manage, baby

Are you heaven, baby?

Life without you is insanity

You're an angel, you don't need no wings

If you ever left this planet, baby

Couldn't manage, baby

[Outro: ZAYN & Ayra Starr]

(Ooh, couldn't manage)

(Ooh)
